

# A-Z of Cloud-Managed Networking

Cisco Meraki's comprehensive cloud-managed networks offer a plethora of benefits to modern day businesses. Here's an A-Z list of the many benefits such a solution can give your organisation.

<b>Access Points</b> Insights delivered straight to the dashboard.		<b>Network Connectivity</b> Always-on availability and easily respond to changing requirements.	
<b>Bandwidth</b> Prioritise bandwidth for business-critical apps.		<b>Outstanding support</b> Meraki have excellent support and offer enterprise-class phone support at no additional cost.	
<b>Content Filtering</b> Block access to dangerous and unwanted content.		<b>Productivity</b> Tailored end-user experience equals increased productivity.	
<b>Dashboard Analytics</b> Actionable insights from across your network.		<b>Quality</b> Across the board - visibility, experience and performance.	
<b>Experience</b> Optimise your end-user experience.		<b>Remote Access</b> Enables mobile workforce through VPN capability.	
<b>Firewall</b> Mitigate risk with a next-gen firewall.		<b>SD WAN</b> Simplify multi site deployments.	
<b>Growth</b> Handle demand and scale up if necessary.		<b>Troubleshooting</b> Undertake on-site or remotely, reducing resolution time.	
<b>Housing</b> Centralised management housed in one dashboard.		<b>Usage</b> Control end-user or device web traffic and application use.	
<b>Meraki Insight</b> Fosters a better end-user experience and reduces time needed to isolate network/application issues.		<b>Visibility</b> Visibility across the globe of all of your Meraki infrastructure from networking to security cameras.	
<b>Judgment</b> Analytics allow for better judgment on how to deliver the end-user experience.		<b>Wireless</b> Add wireless capacity in minutes through fully automatic provisioning.	
<b>Knowledge Base</b> Leverage Meraki's online information hub - Guides, Manuals and Support articles.		<b>XML API</b> Use this to build applications that monitor your Meraki wireless networks and share information.	
<b>Lightweight Management Overheads</b> Take advantage of an easy, fast and simple cloud managed networking solution.		<b>You Choose</b> Flexible subscription options with 1, 3, 5, 7 & 10 year terms.	
<b>Malware Protection</b> Mitigate the risk of malicious files and software.		<b>Zero Day Threats</b> Comprehensive security tools mitigate the risk of a 0-day threat.	

Computer Merchants is proud to partner with Cisco Meraki and bring cloud-managed network technologies to your organisation, providing a reliable, and secure network that will deliver your organisation with the power to not only handle demand, but drive growth and the user experience.
